

Low tide Silver

Posted by dirtdigger1581 - 2012/08/26 10:06

Went to the beach for crack of dawn low tide(0623am) on Thursday morning. Hit the Silver Rose ring within the first 15 minutes. And just before leaving the beach at 0800 I found the silver toe ring. Rose bud is 7.3g & 1.25g for the toe ring.

Happy Hunting!
